

Obstetric and Gynaecological Ultrasound : A Self Assessment Guide

Oluwakemi O. Ola-Ojo

Obstetrics and Gynaecology Ultrasound: a self-assessment guide is a structured questions and answer book that tends to develop the readers understanding capability using a simple method in treating related topics. The book is divided into seven chapters namely: Anatomy, Physics, Gynaecology, First trimester, Second and Third trimester parts 1 and 2 and Fertility. Numerous, high-quality ultrasound images provide examples of images representative of those readers are likely to encounter in practice. Coverage encompasses a wide spectrum of ultrasound training. Detailed information on fertility equips readers with a point of reference for evaluating ultrasound images related to this topic. A logical organization helps readers quickly grasp material and understand the subject.
