

The Ocean

Susan Deming

This spectacular board book unfolds to give a panoramic view of the ocean. The meticulously detailed paintings bring to life the animals and plants that thrive along the oceans shores and swim within its mysterious waters. Armored lobsters, sprightly dolphins, prickly urchins, flying fish, clumsy puffins, and squawking sea gulls are just a few of the exciting and unique marine life forms revealed in the rolling panels of this majestic deep blue sea. The animals and plants are accurately labeled throughout, making this a delightful decoration that will appeal to any budding naturalist.
